

LEADERS IN PERFORMANCE MONITORING AND EVALUATION FOR AFRICA

COMPANY OVERVIEW:

i-Train and Evaluate Center (i-TEC) is the first locally female-owned firm of its kind, which provides a wide range of services in performance monitoring and evaluation (M&E) in Africa.

SERVICES OFFERED:

- Designing project- and program-level M&E Systems
- Performance monitoring and evaluation to improve donor and government programs
- Conducting all types of evaluations:
- Midterm, Final and Impact
- Conducting special studies such as baseline studies, sector-wide reviews, and policy analysis
- Short-term training in M&E concepts for midcareer professionals
- Long-term training for young professionals interested in pursuing evaluation as a career
- Undertaking data collection and research in a variety of areas ranging from household food security and impact of community programs to review of progress made in achieving national development goals
- Country-level and community-level needs assessments, diagnosis, and evaluations
- How-to guides that can assist managers of programs or other individuals to independently conduct their own performance monitoring and evaluation
- Management of web-based database systems with program performance data
- Distilling lessons learned and best practices from monitoring and evaluation to inform budget formulation and future designs of projects or programs
- Help enhance organizational learning by providing an evidence base to test development hypotheses and sharing what works and what does not work

AREAS OF SPECIALIZATION:

- Design of M&E systems/ management information systems
- Performance monitoring and data-quality assessments

- Midterm, final, and impact evaluations
- Special studies such as baseline studies
